

NEW ARRIVALS AT PAWS4PETS

Our mission at Paws4Pets is to give our companions the benefit of a happy healthy life and as such their diet should be as natural as possible. To this end we try and stock food and other products which, we understand, to be additive free and not tested on animals in the development and production stage. Obviously we rely on the integrity of our supplies.

We are constantly searching for products that contain as few chemicals as possible. Would we give a child a dose of weedkiller---I suspect the answer would be no. Yes, we accept that the illnesses we are protecting against are bad and yes, our pets need protection---ideally 100% protection, which, unfortunately, even the mainstream products cannot guarantee us 100% protection.

To compliment the food and to cope with everyday problems and complaints we feel they should be treated with specially formulated herbal medicines where possible. We now have a range of Dorwest products in stock-----both the Herbal and Homeopathic as well as a few very interesting books on the subject. Dorwest Herbs is a family run firm, established in 1948 and based in Dorset in the UK. The company manufactures a specialist range of herbal medicines and dietary supplements for cats and dogs. Dorwest professional herbal medicines are used in practice by Veterinary Surgeons both in the UK and overseas.

We have been searching for some form of alternative repellent for the ticks, fleas and sandflies. Moreso, in our house, after Chloe's bad reaction last month to a spot on product, this month she showed the same reaction to the collar. Luckily I recognised the symptoms faster and removed the collar so she did not become as ill as last month. Recommended is Dorwest Garlic & Fenugreek Tablets, as well as helping with the parasites these are also a remedy for symptomatic relief of rheumatism, arthritis, skin conditions, coughs and minor infections in dogs and cats-----worth keeping in the cupboard. Plain Garlic tablets are also useful for parasites. Dorwest have a lovely shampoo for both dogs and cats, Pennyroyal, it smells of mint and the 'pests' hate it. Check out www.dorwest.com for all details.

We have also found another natural product which I have been trying on my three dogs. I can confirm that I have seen no fleas or ticks since using it—and it smells good as well. It is Dyna-Mite Shampoo and insect repellent. It is made up of Herbal Oils, Citronella, Lavender, Tea Tree, Lemongrass, Penny Royal and Cedarwood.

We have also found an increasing number of pets who have an allergy to rice. Welcome to the Wafcol range of food. www.wafcol.com We are stocking two of the ranges the Super Premium which is made up of Salmon and Potato and Chicken and Corn, and the Complete range. We are excited about this food which comes highly recommended. It will run well with the Burns Real Food for Dogs.

We will have the Dorwest, Dyna-mite, samples of all our food and lots more on our stand, NO 53, at the Country Fayre, Faticil 27th and 28th May. Please come and see us.

PLEASE NOTE THAT THE SHOP IN SILVES WILL HAVE TO BE CLOSED ON SATURDAY 27TH MAYAS WE WILL BE SETTING UP IN LAGOA.
