

Product availability

The feedback from the Country Fayre has been good. Having spoken to so many people I felt it would be good to just go over a few items that cropped up.

First sorry to anyone who wanted goods that we had sold out of, it is never easy to judge how much to take. Because of the size of the stand we had to make a decision not to take any food with us. I will take this opportunity to let you know more information of the new ranges of dog foods and where you can get our food if you cannot get to Silves and miss the delivery dates.

To introduce our new additions to the food range in a little more detail. We have taken on two new foods in order to offer a wider range to our clients----more choice. They have been chosen to work alongside our Burns and as such have the same manufacturing standards.

First Wafcol, this is a very popular brand in the UK and is aimed at pets with allergies to Rice I know a fair number of dogs with this problem. They do an economy variety- (made to the same high standards however) and their new Salmon and Potato range, a little more expensive, but no where near the cost of some of the larger manufacturers. Wafcol do not supply samples but prefer to offer a money back guarantee. Wafcol enrich all recipes with their Ultimate Health Formula, this offers fine balanced food. It contains an optimum balance of Omega 3 and 6, fatty acids and zinc which act together to promote hair growth and superb coat. There are various different ranges, Puppy, Adult, Light and Senior so all ages are covered. If you check out our web page all information is on there. Please contact us on 282 443 170 for pricings.

The other new food is Nutro again chosen for the company values and to run in tandem with the Burns and the Wafcol, in order to offer our clients a wider choice. They have various ranges, Natural Choice is scientifically formulated, using 75 years of Nutro experience along with research from leading veterinarians and nutritionists. Every formula they make contains the finest all-natural ingredients for superior nutrition, taste and performance. The best ingredients mean better food, easier digestion, healthy skin and coat, and smaller stools as with our other foods. Nutro also include the essential vitamins and minerals for a healthy, happy life for your dog. Sometimes as the pet gets older with stiffer joints these additives are helpful. Nutro foods are naturally preserved with Vitamin E. Their philosophy is simple: they constantly strive to provide better ingredients and better nutrition for better health, no matter what the cost. Nutro is marginally more expensive than Burns but we felt it was a good addition to our stock. All information will soon be on our web site. Please contact 282 443 170 for pricings.

We have several outlets who now stock Burns, we can drop off any of our other foods or products to these outlets, just let us know what you need. Hopefully this will make it easier for our clients.

LUZ Terra Da Marmonia Envanaia Meri Hanlin, Rua 25 de Abril N2 c/v Praia da Luz, 8600-174 Lagos. Telephone 965 491 457 or 289 788 353
